The Classic

CWA Approved

Description

The Christiania is a classic in Cycling Without Age. When founder Ole Kassow started the organization in 2012 he used an old rented, de-commissioned Christiania. The model had gone out of production, but the blacksmith was intrigued by the idea of using the trishaw as a social tool and was easily talked into re-starting the production of their old model. Cycling Without Age helped Christiania introduce several improvements making it more elderly-friendly. Such features as a lowerable footrest, softer cushions, and a chat window were developed by local Cycling Without Age affiliates and inspired Christiania to improve their model.

Designer Information

••• christiania bikes

Christiania Bikes is a Danish manufacture that has produced bicycle trailers since 1978 and cargo bikes since 1984. The company is owned by the founders, Lars Engstrom and Annie Lerche. The main office and the production facility are located on the countryside in green surroundings on Bornholm. Currently, the production area expands more than 3000m2.

The production facility consists of modern machineries and facilities as well as a developed IT-infrastructure. Not only are products from Christiania Bikes environmentally friendly, the mindset of the production is also highly focused on being that. For example this mindset includes environmentally friendly heating, electricity and sorting of waste. More than 26 full-time employees are working at Christiania Bikes including carpenters, black smiths, engineers and bicycle mechanics.

Christiania Bikes has built a unique network with long term relationship all over the world with selected retailers and distributors that take a great interest in improving the business in various ways.

Additional Information

Weight: 59.00 kg

The Cycling Without Age Generosity Pledge*

 I promise to be kind, generous and to show solidarity, to let others borrow my trishaw, to help others fundraise and to share my resources with my local and global community.
