

Professor Taylor Enlarges and Revises Institute Catalogue For Coming Year

New Issue to Contain a Picture Section of Tech Campus and Student Life

This fall a new type of college catalogue will greet the student body as well as prospective students. Professor Herbert P. Taylor has undertaken the task of revising the entire catalogue.

It will be a larger book, seven by ten inches, which is one inch by one and a quarter inches larger than the present issue. The type size will be larger and the headings will be more outstanding in form.

The first sixteen pages will be devoted to pictures of Tech buildings and Tech life. Many of these illustrations will be full page affairs and will certainly enliven the catalogue.

More space will be devoted to a discussion of the fields of engineering, W.P.I.'s offerings in the way of courses, and the historical background of the Institute. Extra-curricular activities will play a much more important part in this book.

Because the new catalogue is wider, there will be two 2½ inch wide columns divided in the center of the page to replace the present 4 inch width.

As would be expected, full justice will be given to the campus improvements and new buildings. Inside of the front cover, the new map of the campus will make its first appearance.

In its entirety the catalogue will be a little thinner and will contain around one hundred pages rather than the one hundred and fifty which the present catalogue contains. Sewed binding will take the place of the present stapled binding, thus permitting the reader to open the book flat.

It appears that this new catalogue, which is to accept the red cover as a standard, will contain many interesting and long needed revisions. Prof. Taylor has spent much of his time on this project and it seems assured of success.

S.C.A. Chooses Hoebel and Majka To Head Bible

Last Friday, May 17, the Tech Student Christian Association held its last meeting of the school year. The meeting took place in the faculty dining room at Sanford Riley Hall and was presided over by Clark Goodchild, the retiring president of the S.C.A. Guest speakers were Admiral Cluverius and Dean Howe. Both of these speakers spoke on the merits of the S.C.A. and on the good work the Association is doing around the campus. Following the speaking, new officers for the Tech Bible were chosen. Charles L. Hoebel was chosen editor of the Bible, and Stanley J. Majka was chosen business manager. Hoebel is a member of Phi Gamma Delta, of which he is president, and is the author of Sports Side-lights in the TECH NEWS. Majka is a member of Theta Kappa Phi and is the editor-in-chief of the TECH NEWS. Robert Brautigam had been previously elected president for the coming year. A meeting will be held at the home

C. Adams To Give Commencement Address June 14

Former Secretary of the Navy Is Famous Yachtsman and Businessman

Former Secretary of the Navy Honorable Charles Francis Adams of Boston will deliver the commencement address at the graduation exercises of the class of 1940 on Friday, June 14.

Mr. Adams, who is descended from two early presidents of the United States, was graduated from Harvard with the class of 1888 and four years later took his law degree at that school. He began practice of law in Boston and entered public life in Quincy as a member of the City Council. In 1896 he was elected mayor of Quincy and served two terms in that capacity.

Ten years after his graduation from Harvard he was appointed to the position of treasurer of his alma mater. He served in this post from 1898 to 1929, meantime maintaining contact with various business enterprises as an officer or director. In 1933 he was president of the Harvard Alumni Association. At the present time he is chairman of the board of the State Street Trust Co., Boston.

In addition to his business affiliations and activity in public life, Mr. Adams is internationally known as a yachtsman. In 1920 he skippered the "Resolute" to victory in the International Yacht Races.

Seniors Elect Forkey Permanent Class President

Last week on Thursday and Friday the Senior Class began its slate of permanent officers by electing Raymond Forkey president, it was announced by R. A. Lovell, who is in charge of the elections. Forkey, outstanding member of the class of 1940, has contributed a great deal to the success of the class and is a logical choice. There was a tie between Carl Fritch and Frank Crosby in the vote for treasurer, and this contest will have to be run off at some future date. The Mechanics, Electrics, and Civils voted on Thursday at their Business lecture, while the vote of the Chemists was taken the next day.

of Professor Paul Swan this coming Sunday. Plans will be formulated for the coming year. Admiral Cluverius has been invited to partake of the dinner that will be served.

Every year the local S.C.A. sends two men from Worcester Tech to Camp O-At-Ka, a summer camp for youth leaders. This year, Robert Brautigam has already been picked as one of the representatives. Camp O-At-Ka is at East Sebago, Maine, and is conducted from June 10 to 17.

Schuman Urges Active U. S. Aid For Allies

Lecturer Sees Fascist Domination of World If Allies Are Defeated

The last of this school year's Fuller Lectures was given in the Alumni Gymnasium on Wednesday, May 15, by Dr. William Schuman, professor of Political Science at Williams College. The assembly was opened with selections by the Tech Band and Glee Club.

Dr. Schuman, who is a noted authority on world economic conditions, chose for his topic "Our Foreign Policy in the Present European Crisis".

During the course of the lecture Dr. Schuman discussed the cause and the direct effects that the present European conflict would have on our country. He stated that the cause of this warfare was due to the large groups of people, such as the Germans, who have high ambitions and seek to conquer and rule the world.

Americans Against War

France, Great Britain, and the United States are the only three large world democracies left and they may already be lost. Dr. Schuman stated that from statistics gathered by national polling the American people are determined to keep out of the present war. Other statistics that may be of interest are that 84% of the Americans want the Allies to win the war while only 2% have sided with the Germans. From a poll taken last year 90% of the American people believed that France and England could defeat Hitler's Reich. The speaker continued by saying that if anything is to be done to aid the Allies, thought should be given to it now.

Many of this country's most prominent men believe that the present war in Europe is no concern of the Americas. Dr. Schuman's point of view however is the direct opposite of this. He pointed out that both North and South America are entirely made up of Europeans who first settled here and who brought with them their troubles and conflicts. History shows that the Americas have been involved in every general European war in the last four hundred years. They are involved in the present war emotionally, economically, and strategically.

War Our Business

Woodrow Wilson said, "Any war anywhere is everybody's business."

Every attempt at European or world conquest was brought to an end by the English Empire and its allies, for which England is again striving, at the present time. A defeat of France and England would be a defeat for us. We would be open to military attack and would surely face defeat with "our fifth columns" and "Trojan Horses" within our own lines.

Cooperate With Allies

We are the richest and greatest manufacturing country in the world. Dr. Schuman believes we should use these resources to aid the Allies in any possible way. He believes that we should repeal the Johnson Act and allow the Allies to borrow money from

Seniors Complete Plans For Commencement Week June 11-15

"Senior Frolic" Friday Night

Informal Gathering Is Last For Entire Class of 1940

Plans for the last informal gathering of the entire Senior Class, the "Senior Frolic", have been completed. The affair will be held this coming Friday night, May 24, from 8:00 to 12:00 at the Alden Hydraulic Laboratories in Holden.

All members of the faculty staff of the mechanical engineering department, their wives, and several members of other departments have been invited to attend.

Committee head, Clark Goodchild and aides, Randall Whitehead, Rolfe Johnson, William Brooks, Frank Stevenson, Merrill Skeist and John Bentley, plan for a large evening. Informal dancing to a large public address system with vic records will be held from 8:00 to 10:00, followed by refreshments and more dancing. Games will be interspersed with the dancing and several special contests will be held with "valuable" prizes being awarded to winner, runner-up and "low man".

Tickets are fifty cents per couple and may be obtained from any member of the committee. Sport clothes will be compulsory at the affair.

Prof. Carpenter Voted E.I.A.A. Head

At the annual meeting of the coaches of the Eastern Intercollegiate Athletic Association following the track meet Saturday, Tech's efficient athletic director, Prof. P. R. Carpenter, was re-elected president of the association. At the same meeting, it was voted to hold the event next year at Tech's Alumni field for the sixteenth time.

Professor Carpenter's re-election to the office of president came almost as a matter of course. His executive ability has been instrumental in many past years of success of the organization. In fact, it is largely due to the efficient manner in which he handles the annual meet that Tech has been named host to the contending teams for sixteen of the seventeen times that the event has been held.

Also elected to the executive board of the association was Henry Dussault, whose Tufts team captured its first A.E.I.I. championship last Saturday. He was named first vice-president. Ivan Fuqua, coach of the dethroned Connecticut University aggregation, was made second vice-president, and Lloyd L. Derby, of Mass. State, was chosen secretary-treasurer.

us freely, that the embargo be lifted and our ships used to aid them, and that we break our neutrality and openly help the Allies. This would bolster their morale and break down the morale of the Germans. If we are to act we should act now.

Pres. R. J. Forkey To Be Master of Week's Ceremonies

Reception at President's Home, Class Day in Alden Memorial Are Scheduled

The commencement observance of the class of 1940 will begin Tuesday, June 11, when the graduates will hold their class banquet at the Marlboro Country Club. The following day will be Baccalaureate Day. President Cluverius will entertain at a reception to the Baccalaureate Preacher, the Trustees, the Faculty, and the members of the Graduating Class at his home. Following the reception the class will march to Central Church, where Reverend Richard G. Preston will deliver the Baccalaureate Address.

Thursday, June 13, will mark the opening of Alden Memorial to student activities when class day exercises will be held there with Raymond J. Forkey, president of the class, as master of ceremonies. At this time there will be addresses by the master of ceremonies and J. Dean Lowd, and the class history will be presented by Ronald S. Brand and Frederick B. Miller, respectively. The class gift will be bestowed by Carl F. Fritch. Kenneth C. Fraser will plant the class tree and ivy with his committee. The newly-elected president of the Tech Council will present the Council awards to outstanding members of the graduating class.

Friday will mark the climax of the week when Honorable Charles Francis Adams will deliver the commencement address and President Cluverius will present diplomas and awards to graduating students in Alden Memorial. Winners of the Peel Prize and the Class of '79 Prize will also be announced at this time. In the evening, the Senior Promenade will be held at the Marlboro Country Club with Ray Bellaire and his band providing the music.

Alumni activities will end the week. On June 15 the annual dinner and alumni meeting will be held in the gymnasium following a parade of classes. The Fifty-Year Associates will open Tech's new bridge over West Street. Class reunions will be held throughout the city in the evening.

Finals Held For Peel Award

The Peel Prize finals were held in Boynton Hall last Wednesday afternoon, May 15. The contestants, William Simmons, Charles Hoebel, and Stannard Potter, spoke before a body of students and three Worcester business men, Mr. Cecil Guyatt, Assistant Supt. of Cable Works at American Steel and Wire Co., and Walter W. Webster as well as Lewis Wald of the Vellunoid Co. who acted as judges. Dr. Albert J. Schweiger, head of the committee, says that the winner will be announced on Alumni Day, June 15th. The prize of \$100 is offered annually by Wilfred L. Peel, a New York banker.

Editorials

Congratulations to Walter William Monroe

It is the privilege of every small college to enjoy a certain familiarity between students and faculty members that is made possible by the cognizance and acceptance of individual abilities and personalities. These close associations lead to the establishment of members of the faculty in definite character roles which they inevitably maintain during their associations with each incoming class. This practice is, we believe, a distinct privilege never to be abused, for it makes the small college a living, human period in the life of every one of its students. One of the most well-remembered faculty members to become an integral part of this system is to retire at the conclusion of this year's summer practice.

Walter William Monroe came to the Institute in 1912 as overlord of the pattern shop. At that time, he was 42, and had twenty-two years of pattern making and drafting experience. For 28 years, "Pop", as he became known to all the classes who have passed through the portals of the Institute during that period, has been initiating students into the intricacies of pattern making that take place on the second floor of the Washburn Shops. "Pop's" vigor, which seems to have increased with the passing of years, undoubtedly accounts for his renowned ability to indicate an unacceptable pattern not by means of a check mark, but rather, by more direct means. A bandsaw or hammer have often seen action. Regardless of his method, "Pop" succeeded in impressing the necessity for accuracy and adherence to directions on all his charges.

In 1926, Mr. Munroe assumed additional new duties as instructor in freshman drawing. As a result, he became famous for his extreme accuracy and his forceful desire to instill these qualities in the yearlings. However, the value of this training soon became apparent when the freshmen progressed further along in the curriculum of the Institute. All of "Pop's" methods were, as he always stressed, designed to put the emphasis on practicability.

Walter W. Monroe is, as evidenced by the work he does in his moments free from instructing, a skilled craftsman. His knowledge of, and interest in the construction of boats has often produced many interesting discussions between him and the students. Many undergraduates have seen Mr. Munroe's excellent reproductions of period furniture and they are the envy of all who aspire to excellence in the art of woodworking.

In December last, Walter William Monroe passed the three-score and ten mark, at which the Institute rules automatic retirement. Thus, "Pop" will receive well-earned leisure in which to pursue all those interests that the humdrum of everyday life prevents most of us from indulging in. We, who have worked with "Pop," are sorry to see him leave, but we shall always remember him as an integral part of our associations with the Institute. We take this opportunity to wish him the best of happiness in his new phase of life.

Club News

CAMERA CLUB

The Camera Club will hold its final meeting of the year on Wednesday evening, May 22, at 7:00 P. M. in Boynton Hall, room 19. Business of the meeting will be the election of officers for next year. All members of the club are urged to attend. There will be a discussion of some of the prints entered in the recent "At Home Day" exhibit. Club activities for next year will be considered.

NEWMAN CLUB

The Tech Newman Club held a joint dance with the Worcester State Teachers College Newman Club, Friday evening, May 17, at State Teachers College. Refreshments were served to the fifty attending couples.

LAMBDA CHI ALPHA

May 12, Pi Zeta entertained parents at a banquet in Sanford Riley hall. Admiral Cluverius was present and spoke on Fraternities. The welcome to the parents was given by K. B. Benson. The same afternoon the mothers' club met and elected officers for the coming year.

Last Saturday evening a skat party, under the direction of Larry Krause, was held at the fraternity house.

THETA KAPPA PHI

Bishop M. H. Mekkelholt, S.C.J., bishop of Palembang, Sumatra, Dutch East Indies, and his secretary, Rev. L. G. Neilen, S.C.J., were dinner guests of Lambda chapter Sunday, May 5. The Bishop was touring the United States as a vacation from his missionary duties among the Malays and Javanese of the Dutch East Indies. While at Lambda he was made an honorary member of Theta Kappa Phi in a special ceremony. The Bishop and his secretary proved to be very versatile men with their knowledge of many languages and especially the native dialects of the Indies.

Vassar College has received special funds to finance a study of child behavior and normal personality development.

A.I.E.E. Awards Gove, Howard First Prize For Paper

Sharrman Second, Nims
Third in Presentation of
Papers by W.P.I. Students

A banquet was given by the Worcester Chapter of the A. I. E. E. last Tuesday evening in Sanford Riley Hall. About thirty student members and twenty local chapter members attended the affair. The National President, Mr. Farmer, who is connected with the Electric Testing Laboratory in New York, was a guest at the dinner. He gave an interesting address to the branch members at the conclusion of the meal. Professor Dawes of Yale, National Vice President, also was present and gave a short talk.

At this dinner papers on various electrical subjects were presented by students. Alfred Nims gave his views on the topic, "Discussion on the Simultaneous Amplitude and Frequency Modulation of Some Carrier Wave." R. F. Sharrman discussed the topic, "A Higher Fidelity Reproducer for Use with Frequency Modulator Receivers." Frank Delaney gave a lecture on and a demonstration of a photo electric speed trap. This device was shown to the public by Delaney on "At Home Day." A talk on "Variable Speed Induction Motor" was given by Harry Terkanian. A joint paper by Willard Gove and Daniel Howard concluded the student talks. This was entitled, "An Electro-Magnetic Blind Flying Device." Prizes for the papers were as follows: first prize Willard and Howard Gove, second prize R. F. Sharrman, and third prize Alfred Nims.

NABOICHECK SPURTS TO THRILLING WIN IN 440—Tech's dependable star came through again in a thrilling 440-yard run. NaboiCHECK spurted from third place in the last ten yards to turn in the most exciting race of the day.

Sports Sidelights

By Charles L. Hoebel

On Tuesday the Tech baseball team invades South Worcester to play Clark University on the Clark Field. After the 11 to 3 defeat handed to Clark by Tech two weeks ago, Clark will be out to even the series. . . . Tech's baseball has been all over the lot this season. Lately they have shown evidence of some hitting power, even when they were defeated by Northeastern (who beat the Rhode Island State team twice) on Saturday. The slugfest ended in a final score of 18 to 14, which is a lot of runs in one game. . . . And Ben Lambert has been upsetting the tradition that pitchers can not hit. Two triples in one game, against Clark, and his three-run double in the seventh of the Arnold game. . . . The baseball team closes its season on Saturday with a home game with the Pratt Institute team. . . . The tennis team travels on Wednesday to meet the Rhode Island State team in Kingston, then on Saturday, they meet the Clark netsters on the Tech courts, to close that season. . . . The M. I. T. golf team comes to Worcester Monday for a match with the Tech golfers, then the Tech team will finish up its season in Kingston, meeting the Rhode Island Staters there. . . . Although the track team has finished this season, a few star performers will represent Tech in

Springfield next Friday and Saturday at the N. E. I. A. A. there. . . . Brown, who has run off with the New England track team title consistently in recent years, hasn't seemed to fare so well this season. Rhode Island State, one of the teams to beat Brown this season in dual meets, seemed slated for the top spot. Holy Cross, too, is a serious contender, at least for a few championships. . . . Charlie Rice, who Saturday repeated as Eastern Intercollegiate champion in the mile and half mile events, will be heading for more honors in Springfield. However, there have been lots better times around New England this season than he did Saturday. He himself was far from satisfied with his performance in the mile, 4:24.4 min. But he has done under 4:20, so he should be in the running. . . . Jim Lightbody of Harvard, whose entry in the New England is still a question, Saturday clicked off a 1:52:8 880 yard run. Compare that with Rice's winning time of 1:58:4. . . . Although his team has been losing, Ken Clapp of Brown has been his own fast self. Saturday he won three events, the 100, 220, and 220 low hurdles, as his team lost to M. I. T. In each of the events, he bettered the standing field records.

Northeastern Tops Tech in Wild 18-14 Slugging Battle

Forkey, Atkinson Spark Vain 18-Hit Onslaught On Three Husky Flingers

Riding high on the crest of a 19-hit attack, the Northeastern University baseball team handed Worcester Tech's nine its second straight setback within the past week. The score was 18-14, and was marked by heavy stickwork on the part of both teams as they clashed on the diamond at Brookline last Saturday.

Captain Ben Lambert was Pete Bigler's choice for mound duty, and he got into trouble in the second inning when Northeastern bunched five hits along with two Tech errors to take a six run advantage. The Engineers came bounding back in the fourth frame to shell Sullivan from the mound with a seven-run rally that found Tech collecting a base on balls, a hit batsman, and six bingles to account for their tallies. This lead was short-lived, however, as Northeastern tied it up in their half of the same inning, and forged out in front in the fifth with another single tally. The sixth frame found Tech once again tying the score, but the locals were not to be denied and retaliated with four more counters that put them ahead to stay. Adding two more runs in the seventh and four in the eighth, the Huskies enjoyed a 10-run lead going into the ninth inning. At this point, the Northeastern board of strategy injected Boutelle into the battle by sending him to the hill to replace Foster, who had been hurling steady ball since the fourth frame when he relieved Sullivan. The Boynton Hillers immediately went to work on the servings dished up by Boutelle, and before the smoke had cleared, scored six times on six wallops, a walk, and an error. Foster was then summoned back to mound duty from his post in center-field to stem the Tech attack and receive credit for the victory.

The game was marked by a total of 35 hits for both squads, with every man on each team garnering at least one base-hit for himself. Ray Forkey, Don Atkinson, and Sam Swardlick each personally accounted for three wallops. Ben Lambert had to retire from the mound in the seventh because of an ailing arm, and he was replaced by Zip Liberty.

Phi Gam Leads Baseball Race

With but ten games remaining in the Interfraternity series, P.G.D. is out in front with seven straight victories. They copped the baseball trophy by beating L.X.A. on Sunday. L.X.A. with two defeats and T.K.P. with two losses are the contenders for second place. Despite much activity in the last week, the set-up has not materially changed.

Tufts Wins Eastern Inter-Track With Dugger and Pollard Stars

Rhode Island Trounces Tech Badly by 11-1

Rams Capitalize On Stolen Bases and Many Errors to Win Easily

In their third contest of the season, the Tech baseball team was given a severe beating by a clever Rhode Island State aggregation. The Rhode Islanders took advantage of seven errors and some very good base running which netted them 11 stolen bases, to win the game 11 to 1. Ben Lambert pitched the whole game for Tech and did very well, considering the support he got. He allowed thirteen hits, while the engineers netted eleven from Keaney, the Rhode Island pitcher.

The visitors made their first score in the fourth inning, when they combined a single and two doubles into center field to score two runs. This, however, was only the beginning.

In the fifth inning two singles brought in one run and put a man on first. Another single and a stolen base put men on second and third, and a double to center field brought home a run and left runners on second and third. A long fly to Lipovsky in right field allowed one man to come home and another to go to third, from which he soon stole home on a pitched ball shortly after, the side was retired.

In the sixth inning a base on balls and a stolen base put a man on second, who came home when Carroll's error allowed the batter to stretch a single to a double. The next man hit a one-bagger, bringing in the runner. The third out was made next when Forkey picked up a grounder and threw it to Lambert, who made the put-out at first.

Two bases on balls, two stolen bases and two errors brought in three more runs in the eighth, bringing the total to eleven.

The sole Tech tally was made in the seventh inning, when Atkinson got to first on an error. Gustafson and Carroll both went out on grounders, but they advanced Atkinson to third. From here he scored on Franny Oneglia's single.

The game showed that the Tech team needs plenty of practice, but even in their best form they probably wouldn't have been able to beat the fast Rhode Island team.

The summary:

Tech Takes Fifth As Naboicheck Wins in 440

Hall of Tufts Equals Low Hurdle Record as Jumbos Win Seven First Places

Tufts won their first Eastern Intercollegiate track title behind the star performances of Dugger and Pollard. This was the fifteenth year that the Intercollegiate have been held at Tech. Tech qualified ten men in the trial heats in the morning. Among these were Captain Carl Fritch in the 100, Aaron Naboicheck in the 440, Saarnijoki in the hammer throw, Bob Wilson in the 880, Don Smith in both the high and low hurdles, and Bob Lotz in the broad jump and the shotput. One of the most tense races was the 440 in which Naboicheck put on his well-known kick to beat out Hanna of Connecticut by a stride. As is his customary situation, Butch was third until they passed the field house when he let out the tremendous kick which has won so many races for him and Worcester. Bob Wilson ran a beautiful race and was leading until the stretch, but he was unable to hold his lead against a field that was running considerably under his best time. In spite of that he placed fourth in what was probably close to if not under his best time. Don Smith placed fourth in the high hurdles and was third in the low hurdles until he nearly went down after the ninth hurdle. This threw him off stride and he failed to qualify. Wackerbarth was in a three-way tie for first place in the high jump. White gained a second for Tech in the discus and Captain Fritch placed third in the 100 and fourth in the 220.

Dugger of Tufts was undoubtedly the star of the meet with three firsts and a second. He won the 100, the 220, and the broad jump and was second in the high hurdles. In the hurdles he nearly fell and had to come almost to a stop after two hurdles. In spite of this, he finished second in a race which was only one-fifth of a second over the meet record. Hall, a teammate of Dugger, ran him a second in scoring honors with two firsts and a third. Pollard of Tufts took two firsts along with Rice of Connecticut who had two firsts.

Tech Golfers Tie Brown in Match

In a hard fought contest the Tech golfers tied with Brown 3-3. The match was in Providence last Wednesday afternoon. Matthews of Tech easily won his match against Danforth by sinking a beautiful putt on the thirteenth hole. Bill Bosyk also won his match for Tech on the fifteenth green. Captain Gaidis and Anderson lost their matches. To date the golfers' record stands at one victory, two ties, and three losses.

Summary of the matches:

Gaidis (T) lost to Blomstead, 4-3; Matthews (T) beat Danforth 6-5; Bosyk (T) beat Hall, 3-2; Anderson (T) lost to Patterson, 6-5.

In the doubles Gaidis and Anderson (T) beat Blomstead and Patterson 5-4; and Mathews and Bosyk lost to Danforth and Hall 4-3 in best ball competition.

"And now for that refreshed feeling"

SPOTLESS SATISFIES or You Pay Nothing

DO YOU SMOKE THE CIGARETTE THAT SATISFIES

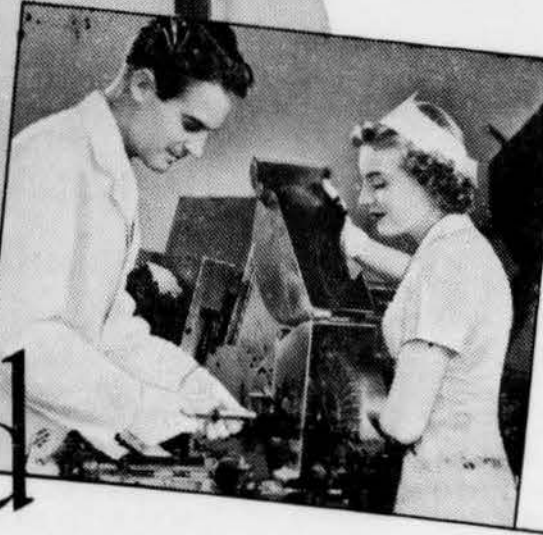

CHESTERFIELD GIVES YOU A
Cooler
BETTER-TASTING
DEFINITELY Milder SMOKE

The one aim of Chesterfield is to give you more smoking pleasure. And no cigarette gives smokers such complete smoking enjoyment as you get from Chesterfield, with its Definitely Milder, Cooler, Better Taste.

The best cigarette tobaccos that grow in Tobaccoland, U. S. A. and in far-away Turkey and Greece are combined right in Chesterfield to give smokers everything they could ask for. If you want real smoking satisfaction ... make your next pack Chesterfield.

POLEY McCLINTOCK and DONNA DAE are two of the busiest stars on Fred Waring's Chesterfield PLEASURE TIME broadcasts.

BETTER MADE FOR BETTER SMOKING
Every Chesterfield must conform to the one right standard of size and shape for a cooler, better-tasting, definitely milder smoke. Chesterfields are made right in every detail to give you the cigarette that really satisfies. (As seen in the new film "TOBACCOLAND, U. S. A.")
