

Fall Sports Banquet Has Bill Summers As Guest Speaker

37 Awards to Be Presented Tech Athletes

This year the annual fall sports banquet will have for its featured speaker the veteran American League umpire, Billy Summers, who was one of the officials at the '55 World Series between Brooklyn and the Yankees. Mr. Summers is one of the most accomplished after-dinner speakers in this area and has an inexhaustible fund of interesting, humorous, and timely stories of his baseball experiences throughout his career as an umpire.

The head of the Athletic Department, Prof. Robert W. Pritchard, will preside and President Arthur B. Bronwell will welcome the athletes to the banquet. Other speakers will be the coaches of the football, soccer, and cross country teams, which include Prof. Pritchard, James Geddes and Frank Sannella, respectively. They will also give out the awards to the letter winners of their respective sports. This year a total of thirty-seven awards will be given, of which seventeen are for football, seventeen for track and three for cross country.

The letter winners will elect the captains for next year's teams and then they will be announced by Prof. Pritchard.

The banquet will be held Dec. 15 at 6:30 P.M. in the Sanford Riley Commons. Tickets can be obtained from representatives at each fraternity house and at the dorm for \$1.50 per ticket. They may also be obtained from Eddie Eidt or Jimmy Christo of the ticket committee.

The decorations committee is composed of Bob Beckett, George Strom, and John Rogers. They are in charge of decorating the Commons for the shindig.

Since the football highlights of WPI's highly successful campaign of '55 have already been shown, Prof. Pritchard is looking elsewhere for entertainment and as of yet no announcements have been made pertaining to this portion of the program.

Viceroy Prizes Total \$50,000

The biggest and most exciting contest ever offered exclusively to college men and women—with 10 new 1956 fully-equipped Ford Thunderbirds as the top prizes—is now underway on this campus under the sponsorship of Viceroy, America's largest selling filter-tip cigarette.

The contest to "Name The Viceroy Filter" is awarding 60 prizes, totaling \$50,000, to college students—and only college students—who write in the best names for Viceroy's pure, white, natural filter.

This once-in-a-lifetime opportunity means that 10 college men or women will have as their very own, America's favorite dream car, the dazzling 225-horsepower Thunderbird, in their choice of colors, with automatic transmission, two tops, power steering, radio and white sidewall tires.

See VICEROY PRIZES—Page 4

TECH RECEIVES GIFT OF ELECTRIC CARILLON

Dedicated at Wed. Assembly

Worcester Polytechnic Institute now has an electric carillon installed in Alden Memorial Hall on the campus.

The carillon, purchased from a gift of \$18,000 from Mrs. Isabel Hood Smith of Shrewsbury, is in memory of her husband, Williams Binns Smith, Class of 1908.

In announcing the gift, President Arthur B. Bronwell said, "The chimes will be a great source of inspiration to the students, the faculty and the community. Other colleges and universities which have been fortunate enough to have carillons such as this find they lend a spiritual quality to the busy work-a-day world which is long remembered by the students after they have left the campus."

Dedication of the chimes will be at 11 a.m., Wednesday, Dec. 14, at the annual WPI-Becker College Glee Clubs Christmas program which is directed by Clifford Fowler Green.

Mr. Smith, who died in August 1952, received an honorary doctor of engineering degree from WPI in 1949. He was president and treasurer of James B. Smith & Sons Inc. of Worcester and a trustee of The Memorial Hospital. An enthusiastic supporter of Tech activities, he contributed the funds for the library of Kaven Hall, the civil engineering building.

The device may be operated from the organ console manually and can be heard either externally by means of speakers in the Alden Tower or internally by a speaker in the auditorium. To assure professional quality, most of the playing will be done by perforated music rolls on an automatic player. Recitals will be limited to 15 to 20 minutes a day according to President Bronwell.

The musical selections will include classical music, hymns, folk songs and traditional music during appropriate seasons.

The tone source of Tech's electronic carillon, known as the Celesta-Chime, is a series of slender rods which are sounded by electrically actuated strikers.

Application of electronics in this type of modern bell instrument makes it

See CARILLON—Page 4

PI DELT HONORS INITIATES

Last Sunday afternoon, December 11, Pi Delta Epsilon held its semi-annual initiation banquet with the noted author Esther Forbes as guest speaker.

Esther Forbes is the author of many fine novels, including such famous books as "Johnny Treman", which Walt Disney is now planning to make into a motion picture and "Running of the Tide", for which she won the MGM Award and the Pulitzer Prize in 1942. The speaker is a resident of Worcester and lives near Tech campus on Trowbridge.

The new initiates honored at this banquet were: Prof. Warren Zepp, Robert Beaudet, John Lillibridge, Robert Foisie, and Richard Hajec.

FRESHMAN RUSHING COMPLETED

PLEDGINGS

On Saturday afternoon the nine fraternities on the hill culminated their fall rushing with the pledging of Freshmen. Early Saturday morning the Frosh submitted to Prof. Schiefley their list of three houses to which they wished to be pledged. These lists were then tabulated with the lists submitted by the fraternities and the final lists of pledgings were released. After picking up their pledges at the dorm the fraternity men retired to their respective houses for the formal pledging ceremonies. After the basketball game Saturday night all of the houses had "Pledge Parties".

The pledgings were as follows:

Theta Kappa Phi

R. P. Alekshun, R. L. Bourget, J. D. Bronzino, J. V. Bucciaglia, J. B. Burke, F. M. Cohee, L. H. Courtemanche, J. D. Daddario, Jr., N. P. DePratti, L. L. Dutram, R. F. Dziurgot, D. R. Ferrari, T. J. Hill, D. F. Kloczek, R. R. LaFontaine, J. A. Lenard, J. E. McGinnis, R. E. Mason, R. P. O'Rourke, F. J. Pakulski, R. J. Pavlosky, R. S. Perzan, F. Salek, P. G. Sikoris, H. G. Sokolski, R. J. Stec, J. P. Zimonis.

Phi Gamma Delta

R. C. Basil, R. A. Berg, R. E. Bober, A. D. Dickert, O. H. Hawley, R. C. Hayden, P. A. Holden, T. F. Humphrey, R. Jaramillo, Jr., F. H. Lutze, Jr., D. C. McLeod, N. L. Monks, W. B. Priem, P. E. Rockefeller, R. D. Smith, D. G. Stotz, D. B. Sullivan, A. Swetz, Jr., R. J. Walker, M. M. Whitney, Jr.

Alpha Tau Omega

R. C. Bourne, J. P. Burger, F. A. Droms, W. N. Felenchak, R. N. Gustafson, T. N. Hurley, M. W. King, D. E. Kirk, S. W. Macomber, R. E. Miller, R. S. Orchotsky, R. M. Rathbun, A. L. Rosner, R. F. Strachan, H. H. Street, W. M. Wassenar.

See FROSH RUSHING—Page 4

SIX SENIORS RECEIVE PRESIDENTIAL NOMINATION

Six Worcester Polytechnic Institute seniors, previously designated as Distinguished Military Students, have been nominated by the President of the United States for Regular Army commissions.

Lt. Col. Charles E. Burner, head of the department of military science and tactics at WPI, announced that the awards of the commissions are subject only to acceptance by the nominees.

Three Tech men were named for commissions in the Army Signal Corps out of a total of 42 in the nation. Two others were in the Corps of Engineers and one in the Chemical Corps.

Approximately 550 names appear on the nationwide list representing selection from 128 colleges and universities.

Four of the Tech winners are from Central Massachusetts:

WILLIAM A. ANDERSEN, of 55 Oak street, Shrewsbury, Signal Corps.

LAWRENCE B. HERRIGAN, JR. of 42 Adams street, Orange, Corps of Engineers.

HENRY W. NOWICK of 5 Prospect street, Maynard, Chemical Corps.

PAUL D. SCHOONMAKER, of 5 Overlock drive, Northboro, Signal Corps.

Others:
ANTHONY V. SCANCELLA of Bristol, Pa., Signal Corps.

GEORGE P. STROM of Lynn, Corps of Engineers.

Andersen is the ROTC cadet battalion commander. He is majoring in mechanical engineering and has been a member of the Council of Presidents, lacrosse team, interfraternity council and the debating team.

Herrigan is a cadet captain and the top man among the seniors studying civil engineering, based on the last honor roll. He is president of the student chapter of the American Society of Civil Engineers and of the Newman Club, and is vice-president of Tau Beta Pi, national engineering fraternity.

Nowick is a cadet major, president of his class, co-captain of basketball and football and is specializing in chemical engineering.

Schoonmaker is a major on the ROTC battalion staff and not only the top man in senior electrical engineering, but has led his class in scholarship the last three years. He is secretary of his class and of Tau Beta Pi.

Scancellia is a cadet captain and a chemical engineering major. He is editor-in-chief of TECH NEWS and a member of Varsity Club, Newman Club and Tech Council.

Strom is a cadet major, a senior in mechanical engineering, president of

See SIX SENIORS—Page 3

WPI NITE FEATURES DORSEYS

On Dec. 28, 1955 there will be a college night held for WPI at Frank Dailey's Meadowbrook in New Jersey, featuring the fabulous Dorsey brothers. The charge for this great show is \$1.50 per person for the music. There will be no other cover or minimum charge for anyone from Tech. The music will start at 7:30 P.M. and continue on until 2:30 A.M.

With the Dorseys will be some of the best entertainers in such accomplished instrumentalists as Louie Bellson, Charlie Shavers, Lee Castle, Don Rogers, and Jilla Webb.

Both Tommy and Jimmy have made great individual contributions to popular music. Tommy was the first band-leader in America to use the trombone as a lead solo instrument, and he gave this warm instrument a new place in music. Jimmy, however, is credited with being one of the great saxophone stylists of the early jazz era and the man who did the most to launch the juke box industry.

The WPI school song will be played by the Dorsey band and the school banner will also be displayed.

Bob Beckett has been assigned as chairman of this event by the Tech Senate. In order to facilitate the making of reservations, he is having a flyer made up to be distributed around the campus and fraternity houses, which will have attached to it, reservation slips, to be filled out by anyone wishing to go and returned to Bob Beckett.

TRACK COACH SANNELLA ISSUES A SECOND CALL

Nowick Named On All-Chemical All-American

Three Worcester Tech grid stars have been honored by being selected by the Chemical & Engineering News for their annual All-Chemical All-American football team. Co-captain Hank Nowick, a senior and an honor student who led Tech to this season's fine showing with his outstanding pass receiving and defensive play was named on the first team as an end for the second straight year.

Don Lussier, Tech's backfield star and top point getter for the past two years, and Joe Concordia, a standout in the forward wall at tackle, were given honorable mention.

The selections are made from the ranks of students in chemistry and chemical engineering throughout the country who play varsity football and still maintain top grades in their studies. Its purpose is to pay tribute to those men who are doing a great service to science and industry by showing that outstanding work in the classroom is compatible with the demands of varsity football. It is hoped that the example set by these men will curb the tendency to shun technical courses because they do not allow time for sports or other extra-curricular activities.

To give you an idea of the exclusive company the boys are keeping, here is the complete lineup:

- BACKS**
- Tom Jenkins, Pittsburgh
 - Dick Martin, Princeton
 - Bob Taylor, Lehigh
 - Norm Spears, Colorado College
 - Freddy Wyant, West Virginia
- LINEMEN**
- Henry Nowick, W.P.I.*
 - Bob Aldrich, Princeton
 - Bruce Bosley, West Virginia
 - Vince Grande, Delaware
 - Delbert Mason, Oberlin
 - Kenneth McGraw, Johns Hopkins
 - Charles Rader, Tennessee

- Honorable Mention**
- Dick Carney, Lehigh
 - Donald Lussier, W.P.I.*
 - Joe Concordia, W.P.I.*
 - Frank Chiera, B.U.
 - Tony Chirco, Juniata
 - Ward Curran, Trinity
 - Gary Dixon, Colorado College
 - Neal Egan, Montana
 - Dale Johnson, Oberlin
 - Floyd King, Colorado College
 - John Michalski, Bucknell
 - Larry Seidl, Western Reserve

SPORT SCHEDULE

- Basketball**
- Dec. 17—Norwich
 - Jan. 7—Lowell Tech
 - Jan. 11—M.I.T.
- Relay**
- Jan. 14—K. of C. Relay—Boston
- Swimming**
- Dec. 14—Univ. of Conn.
 - Jan. 13—Univ. of Mass.

Coach Frank Sannella, mentor of Tech's indoor relay squad, has issued a second call for runners to try out for his winter teams.

This active, but little known Tech sport is now in the training stage at the Alumni Gym and even though his first call produced an average number of aspirants, Sannella reports that there are still many positions open on the two relay teams he plans to have represent W.P.I. in the coming indoor track season.

Tech's winter relay teams have the honor of performing before more fans than any other sport here on the Hill. The squad will compete in two meets, the K of C and the B.A.A. Relays, both held in the Boston Garden. These events annually fill the Garden to its 13,909 capacity, and it matches the top runners and field event men in the country competing against each other. Since the Tech runners will be rubbing elbows with such top flight talent, it is very important that Coach Sannella enter the strongest possible teams to represent W.P.I. With Tech planning on two teams this year, it is even more vital that anyone with any kind of running ability report to Coach Sannella at the Gym, to try out for the squad.

Upperclassmen now bidding for a berth on these teams are: Dick McBride, Senior Captain and Tech's top sprinter; Bob Robinson, out-door 220 and 440 standout; John Rogers, a top-flight 880 man; and Junior, Jim Brown, Tech's outstanding middle distance runner.

Sophomores Bert Lemieux and Alex Hellman, spring distance runners, are also out for the team and they both show fine promise. Many Freshmen are also out for the squad, however more men are desperately needed to round out two strong Engineer winter relay teams.

Once again: **COACH SANNELLA WOULD LIKE TO SEE ANYONE WITH ANY RUNNING ABILITY TRY OUT FOR THE RELAY SQUAD.**

The schedule:

- Jan. 14—K of C Relay—Boston Garden
- Jan. 28—B.A.A. Relay—Boston Garden

JV'S BEATEN BY BU 67-51

Worcester Tech's Yearlings fell to their third straight defeat Saturday night as they bowed to a strong Boston University quintet 67-51 at the Alumni Gym. The Terrier's control of the boards enabled them to surge ahead to a 25-8 lead in the first period. Led by the sharpshooting of Leaman and O'Connell they continued to dominate the play until they had widened the gap to 16 points at 31-15.

At this point the Techmen suddenly came to life and poured through an amazing total of 16 straight points to knot the game at 31-all. Key men in the drive were Frank Salek who played great defensive ball and Basil and Edwards, who did the bulk of the scoring. With 33 seconds remaining until half-time, Tech pulled ahead for the first time in the ballgame 34 to 32, and the half ended with the Engineers in front, 34-33. Tech had scored 19 points in

B.U. TERRIERS DROP TECH 79-55 IN ONE-SIDED TILT

Norwich Brings Strong Five to Tech Gym Sat.

This coming Saturday, Coach McNulty's Tech quintet plays host to a powerful Norwich five here at the Alumni Gym. The invaders from Vermont will be making a two day Worcester visit, playing Assumption Friday night and coming here the following evening.

The Horsemen have boasted one of the best records in New England small college basketball circles in recent years. In the '53-'54 campaign, they compiled an overpowering 19 win-2 loss record, while earlier this year, they finished their season with an impressive 18-6 total. It is obvious that Norwich is riding high in an era of basketball prosperity and even though the Horsemen have incurred one loss thus far this year, they will bring a talented and powerful team into Alumni Gym this weekend.

Norwich has taken on Tech three times in the past few years, losing two and winning once. The two defeats were played here in Worcester, while Tech won the game up in Vermont.

The visitors are led by Howie Davis, a 6'3" Sophomore who is the team's leading scorer. Davis poured 32 points through the hoop against a better than average Merrimac five earlier this year; so this boy, number 43, will be worth watching. Co-Captains Cliff Johnson and Bob Yeadon round out a high scoring Norwich trio which has done the bulk of the scoring in the invader's games so far this season.

It looks like another fine Saturday night encounter slated for the Worcester Tech Gym with the Engineers being a definite underdog.

their surge while holding B.U. to only two free tosses.

The second half started just as the first had begun, however, and the Terriers again opened up a tremendous edge, 57 to 39. Leaman proved to be the sparkplug and sharpshooter once more. The Engineers attempted to regain their form as Gustafson went to the foul line time and again toward the end of the game but it proved to be too little too late and they failed to whittle off more than a few points from the B.U. lead.

Visitors' Height and Speed Dazzle I.F. Weekend Crowd

By BOB PURPLE

The Worcester Tech quintet for the second time in three outings this year, found themselves on the short end of the final score last Saturday night at the W.P.I. Gym as a strong Boston University aggregation soundly trounced the Engineers 79-55. For the first half the battle waged fairly evenly, but after the intermission the Terriers began hitting with discouraging frequency and by the end of the ballgame B.U.'s combination of height and fast break had completely overwhelmed the McNulty men.

The Engineers, in spite of B.U.'s obvious superiority off the boards, fought doggedly for the first 20 minute segment and held the lead on four occasions during this time. Tech's last lead, 11-9 midway in the first quarter, was short lived as Dick Armstrong's charity toss followed by Kevin Thomas' short pop pulled B.U. into the lead 12-11. It was Armstrong again, taking a pass from Thomas, who drove in for a score, and shortly afterwards hit from the left side to add four more to the B.U. total. Maria Sottile on a sole jaunt chipped in two and Armstrong, on the side again gave the Terriers a 20-11 lead at the 10 minute mark.

The Boyntonhillers kept up a steady fire from the outside during the second period to stay in the ball game. Jim Cheney's two baskets and a free toss plus Hank Nowick's seven points, five of which came via the charity route brought Tech to within four points of the lead 32-28 in the last seconds of the half. B.U.'s Thomas hit back fast on his twist-around shot with teammate Charley Fiorino adding two free tosses and at the intermission, the Terriers were up by 8 points, 36-28.

When play resumed, the Terriers struck for six quick markers without interruption and from here in, the Boston club controlled the game. Thomas

started Tech's downfall with a layup; Fiorino added a push shot and Ralph Hubbard connected on a rebound to give B.U. a big 14 point bludge, 42-28.

The Terriers continued the pressure the rest of the way and led 61-40 midway through the half. Four times the visitors built their lead to 25 points as Tech continually lost chances due to sloppy ball handling.

Co-Captain Hank Nowick was Tech's high man for the evening as he chalked up 19 points, 11 from the charity stripe. Freshman Fred Lutze looked good off the boards, but aside from this and Nowick's play, the weekend audience had little to cheer about.

Next Saturday the Engineers will play host to a strong Norwich quintet as Coach McNulty will attempt to get his hoopsters back on the win trail in Tech's Saturday night's home contest.

All-IF Volleyball Choices Made

The All-I.F. Volleyball Team was chosen this year as a consensus of All-Opponent Teams submitted by eight men on each Fraternities' volleyball team. They were rated on the basis of 5 points for a first team ballot and two points for a place on a second team ballot. The undefeated team from SAE placed Jack McHugh and Bob Robinson on the first team, Charles Whitney on the second team and Jim Christo received honorable mention. The second place Phi Sig team was represented on the first team by Bob Philhower and Joe Wahl, on the second team by Jim Cheney, and Tom Brand and Nate Beale received honorable mention. Sig Ep in third place had the captain of the All-I.F. Team, Dick Bazinet, and honorable mention John MacHarg. Jack Kasper of TKP rounded out the first team. ATO placed Dave Penkus and Arnold Hall on the second team, while Theta

Kap had Kev Joyce and Phi Gam placed Fred Hering.

VICEROY PRIZES—From Page 1

What's more, each of the 10 Thunderbird winners will be able to present a college organization of his choice (fraternity, sorority, etc.) with an RCA Victor Big Color Television Set.

As second prizes, Viceroy is awarding 40 students what music lovers everywhere acknowledge as America's finest high fidelity phonograph—the Columbia "360" K—in beautiful mahogany.

The \$50,000 "Name The Viceroy Filter" Contest has been especially planned for busy college students. There are no letters to write, no jingles to complete, no 25-word statements to prepare. All you do is make up a name for the amazing Viceroy Filter and submit it on a special entry blank or a plain piece of paper. There is no limit to the number of times a student may enter—but send a picture of the Viceroy Filter Tip from the backs of two (2) Viceroy packs with each entry.

The rules of the contest are given in detail in large-space Viceroy advertisements which are running in this newspaper as well as on entry blanks which have been distributed around the campus. The business manager of this newspaper also has full particulars.

Early reports from campus organizations here indicate that many groups already are at work to promote the contest among their members in an effort to win one of the RCA Victor Big Color Television sets which Thunderbird winners will be able to award to organizations of their choice. Competition is expected to be keen, with 100% of members entering the contest.

Viceroy Filter Tip Cigarettes, a product of the Brown & Williamson Tobacco Corporation, is the world's largest-selling filter brand, and is known widely among smokers as the cigarette with 20,000 tiny filters in every tip. It is this amazing filter, made exclusively from pure, white cellulose, which is the focal point of the contest, and Viceroy ads in this paper will carry hints on its purity and effectiveness as an aid to contest entrants.

ON OTHER HILLS—From Page 2

Polishing of Leather." After him came others of equal zeal and foresight, men like Edward Griffin, Arnold Alwright, Henry Scheinola, and Prof. Robert Esquire. With the work of such pioneers as a basis, men of our generation have been enabled to realize standards hitherto undreamed of.

Today, halfway through the twentieth-century, scientists have been able to unravel some of the mysteries, which puzzled our grandfathers. The level of poliability is that surface of leather called the nacream, because it is above the nacre, or tannic stratum. This nacream surface has a particular ratio of absorbance between oils and water. This must be learned and committed to memory. A base has to be achieved upon which the successive layers of polish may be applied; this base is achieved only by means of a solution of water and polish, together with the adhesion of alcohol.

This is the scientific explanation of spit-shining. But we're not interested so much in that. It's the by-product, relaxation, that makes polishing a rewarding hobby. Few hobbies are without mental exertion. Most pastimes have a way of becoming occupations and sometimes insinuating themselves into obsessions—but not spit-shining. Spit-shining needs no thought; a bored monkey could take advantage of it with as much success as a human. Indeed, there are few pastimes that overcome boredom better and have a more useful material end.

Possibly the best known process is called the Brennan Method, named after William P. Brennan, USMC Reg. Unlace the shoe; support it firmly with a shoe-tree and clean it carefully with a soft cloth. Mix a solution of three parts water and one part alcohol. Dampen a soft cotton or nylon cloth with this solution and apply the polish with a small circular motion of the finger. Remember never to use a shoe brush. If you mind that there is too much polish applied, burn off the excess with alcohol and a match. If, on the other hand, there is too much water in the leather, and the saturated surface refuses polish, thoroughly dry the shoe over heat. For quick applications it has proved successful to apply polish together with an excess of liquid. In this condition the shoe is placed over heat, which drives the polish into the leather as the moisture is soaked up. When dry, the shoe is ready for a buffing and a second application.

The only other method is that set forth by Pvt. Francis Flanagan. He follows the Brennan Method ostensibly, but differs from it in that he prescribes buffing immediately after an application of polish and a spattering of water.

No matter to what school you belong, the end product is always the same: a feeling of satisfaction and the realization of a job well done. Words fail to convey the feelings of a veteran spit-shiner after several hours of work, the satisfaction he feels, being able to see his own happy face in the mirror of a polished shoe. Then he is justly entitled to lie back in his chair, free from the pressing cares of a vain world, and gaze wistfully at the arching day of cloud and sky on the toe of his spit-shined shoe.

CARILLON—From Page 1

possible for a one and one-quarter ounce metal rod to produce a tone of finest musical quality. These chimes are free of discordant overtones of bells, hence they have a much more pleasing tone.

Tonal range of the instrument, according to the maker, J. C. Deagan Inc., Chicago, is 32 notes and the scale range is two and one-half octaves. All music suitable for bells may be played on the carillon.

The Deagan Carillons, recognized as among the best in the world, according to President Bronwell, have been installed at George Washington Masonic National Memorial in Alexandria, Va.; University of Oklahoma, Norman, Okla.; Kansas State Teachers College, Pittsburg, Kan.; Western Michigan College of Education, Kalamazoo, Mich.; Steinway Hall, New York City; Tribune Tower, Chicago, and numerous churches of varying denominations throughout the country.

At the dedication, Carillonneur June Albright of Chicago will operate the instrument manually. Acceptance will be by President Bronwell.

CONGRATULATIONS—From Page 2

one of the best programs which has ever graced an Interfraternity Week-end.

The assemblage of talent, the decorations and the mood all helped to achieve the purpose of the Ball, that being to help all present to enjoy themselves and forget the hectic lives that they live.

Congratulations once again for a job well done.
