

# Green Bucharest: Nature in the City

---

Collaborator: Parcul Natural Văcărești

4/25/2024

Aabid Peermohammed, Ainsley Poole,  
Micaela Tourtellot, Syrena Prytko

**WPI**

# Urban Nature Parks Have Many Benefits

**Socio-  
economic**

**Physical**

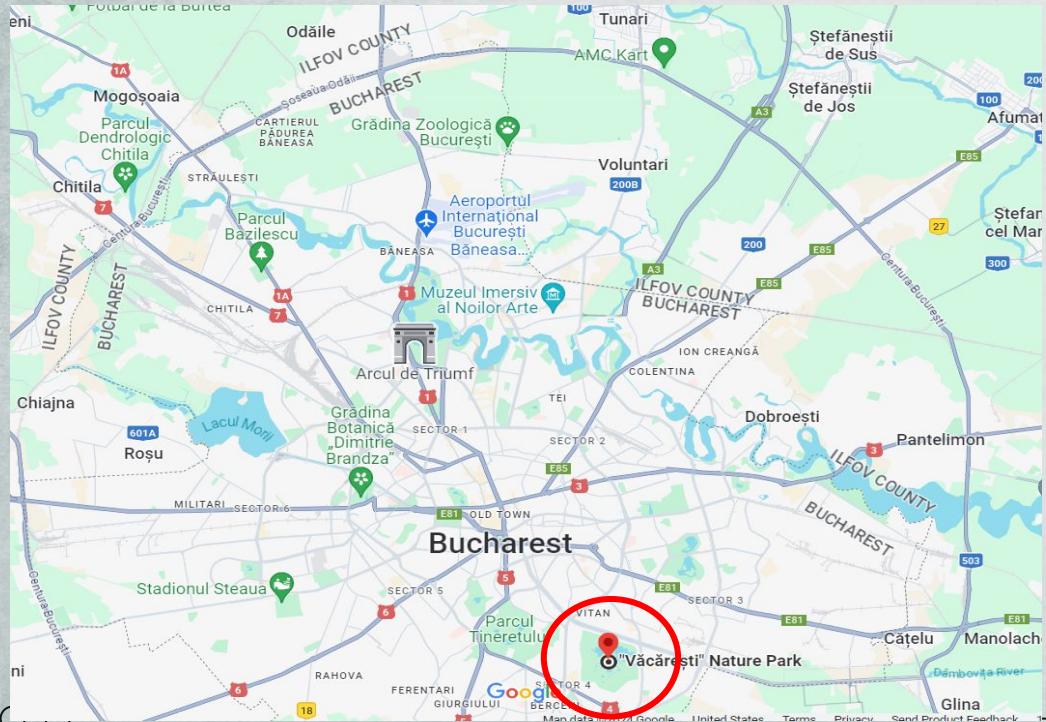

**Psychological**

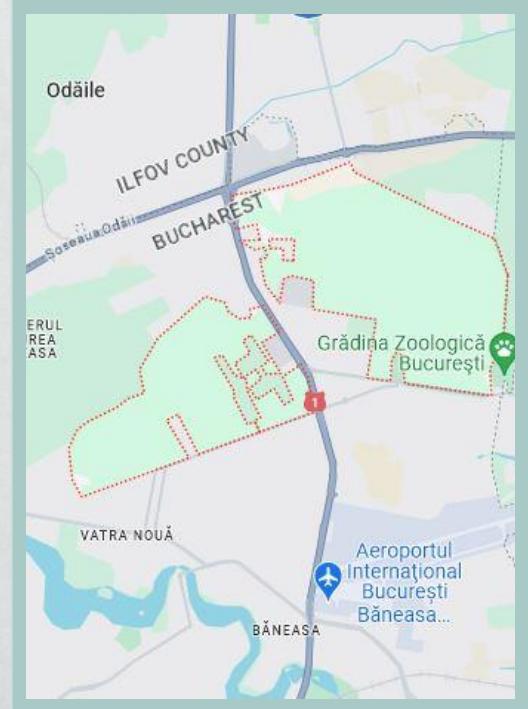

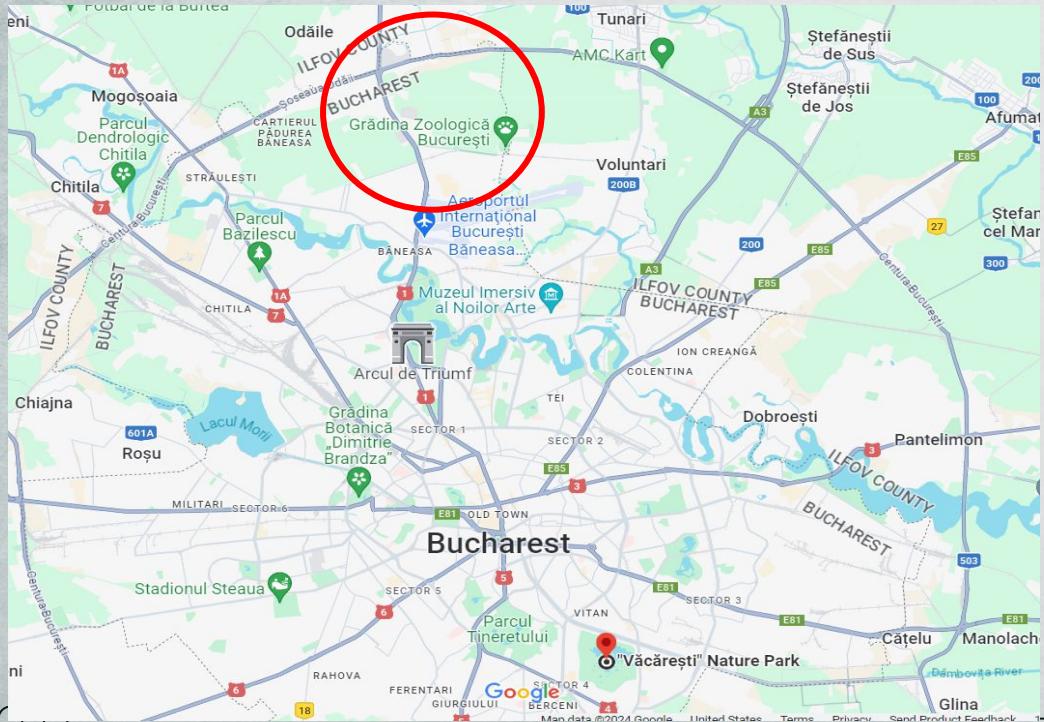

**Environmental**

# Văcărești Natural Park is Located 4km from the City Center

# Băneasa Forest is Located 14km from the City Center

# Văcărești Natural Park Association

The background image shows an aerial view of a large urban area, likely Bucharest, with a dense cluster of buildings in the distance. In the foreground and middle ground, there are extensive wetland areas with small, scattered green trees and shrubs. To the right, there is a large forested area with dark green foliage. The overall scene is a mix of urban development and natural landscape.

# Project Goal

**Outline** a mobile application to  
**educate** the residents of  
Bucharest about Văcăreşti  
Natural Park and Băneasa Forest

# Objectives

Determine the knowledge and opinions of Bucharest residents

Identify existing park apps and their education elements

Design features for the app from survey results

Determine public interest for the app outline

**1**

**2**

**3**

**4**

A photograph of a duck standing in shallow water, possibly a teal or similar species. The duck is facing right, with its wings partially spread, revealing white feathers. It is surrounded by green reeds and foliage. The water is calm with some ripples. The overall scene is a natural, outdoor setting.

# Văcărești Natural Park

---

Văcărești Natural  
Park was  
Founded in 2016

1988

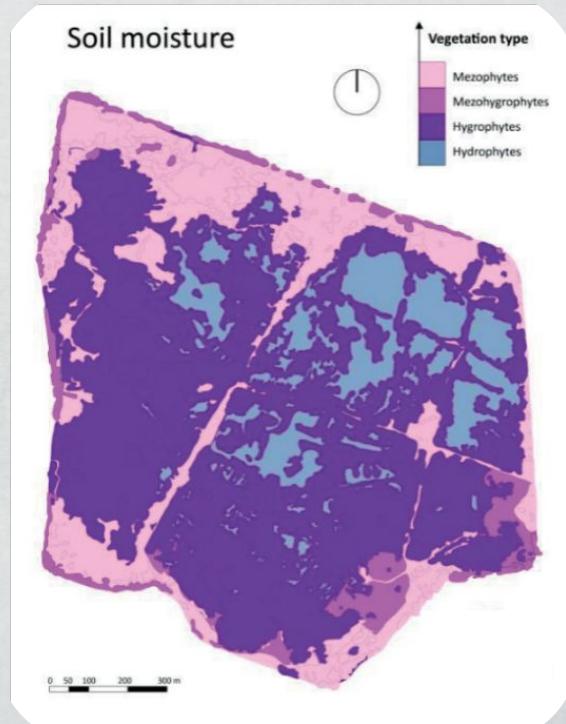

Văcărești Natural Park was Founded in 2016

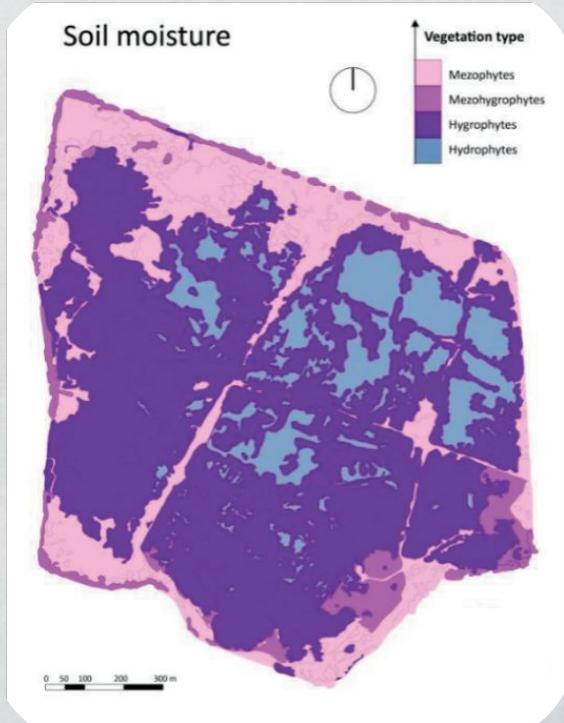

2016

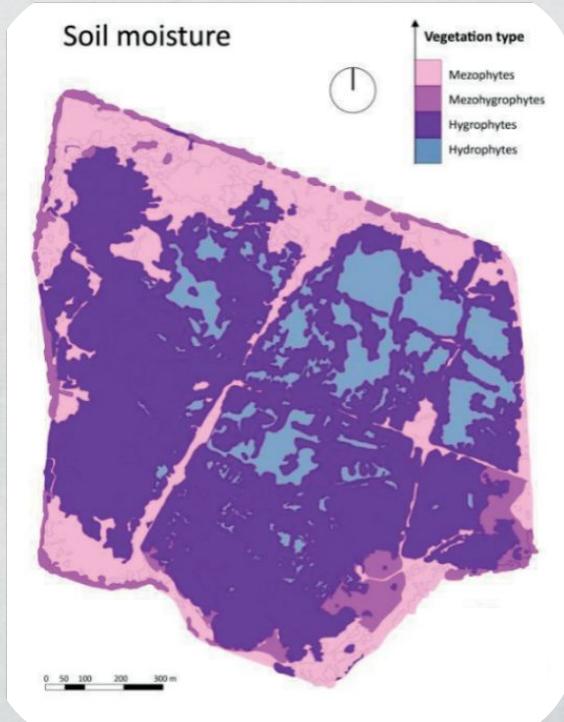

# There are approximately 330 Species of Plants in the Park in 11 Different Habitats

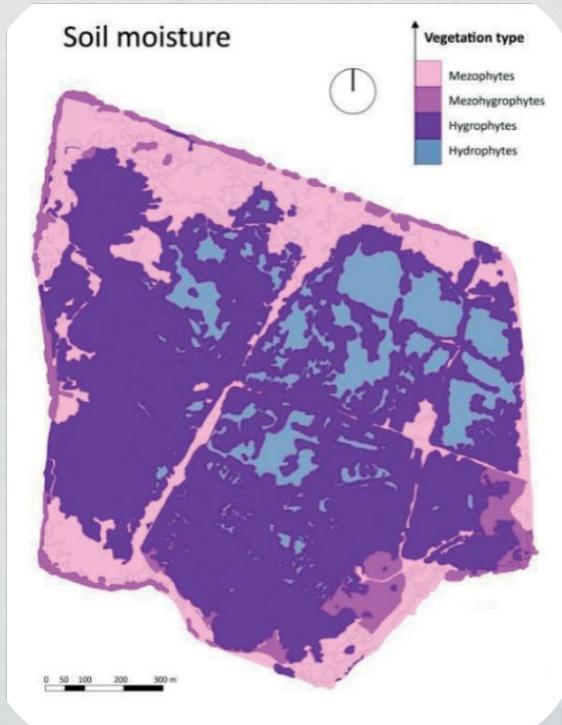

# There are approximately 330 Species of Plants in the Park in 11 Different Habitats

# There are approximately 330 Species of Plants in the Park in 11 Different Habitats

# There are approximately 330 Species of Plants in the Park in 11 Different Habitats

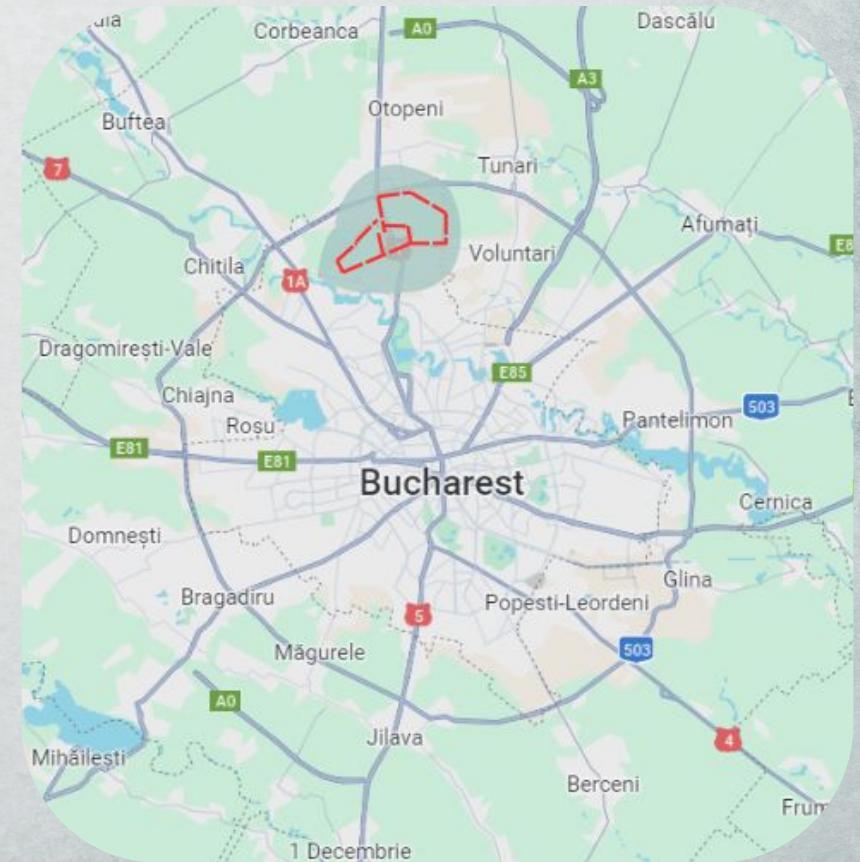

56 of the 135 Species  
of Insects and 172 of  
the 176 Species of  
Birds in the Park are  
on the IUCN Red List

A photograph of a forest with many tall, thin trees. The sun is shining through the branches, creating bright highlights and deep shadows. The ground is covered in green grass and some fallen leaves.

# Băneasa Forest

---

# A Fraction of Băneasa Forest Remains Accessible to the Public

The Forest is Home to a  
Large Number of  
Amphibians and Birds,  
Many of Which are on  
the **IUCN Red List**

A photograph of a group of approximately 20 people walking through a dense field of tall, dry grass and reeds. They are moving away from the camera, towards a line of trees and bushes in the background. The scene is bathed in bright sunlight, creating strong shadows and lens flare effects. A small wooden structure with a metal roof is visible on the left side of the frame.

# Methods

---

# Surveys were Used to Gauge Public Knowledge of Green Spaces

# Surveys were Used to Gauge Public Knowledge of Green Spaces

# 16 Nature Park Apps were Analyzed for Key Features

# Survey Results were Compared with App Features

# Mockups were Created and Feedback was Collected

**Initial Impressions**

**Proposed Features**

**Overall Layout**

**Areas of Improvement**

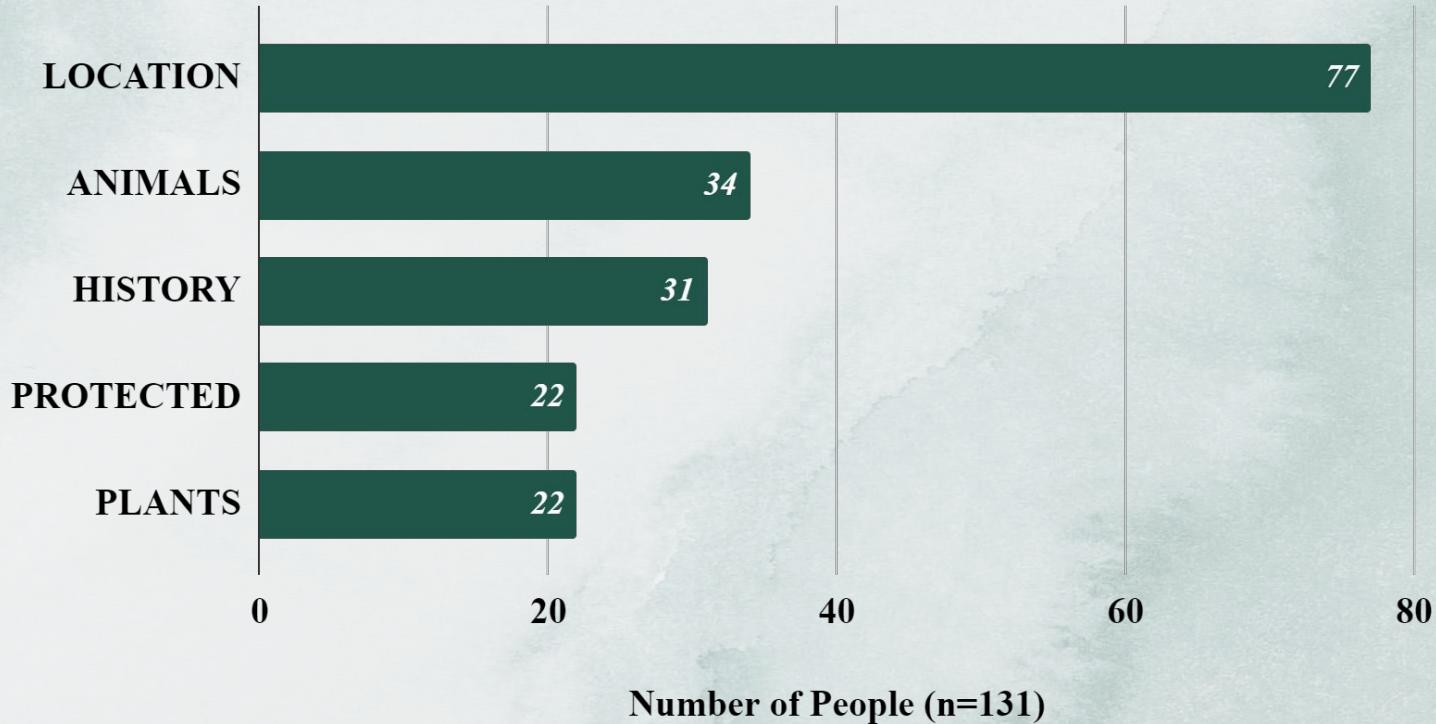

A photograph of a white heron standing in shallow water, surrounded by tall, thin reeds. The heron is facing left, with its long neck curved and its wings partially spread, showing its white plumage and long legs. The water reflects the surrounding environment.
