What country do you live in?	If you live in the United States, what state?	Is there where you live susceptible to natural disasters? If so, what disasters are most common? Select all that apply - Selected Choice	Is where you live susceptible to natural disasters? If so, what disasters are most common? Select all that apply - Other-Text Diseases (e.g., COVID, Lyme, West Nile). Also, please note: Disaster is usually defined as a hazardous event involving substantial property damage and/or loss of life. I have experienced many hazard events (e.g., blizzards), but these are not necessarily disasters. There are many hazard events (floods, etc.) in Massachusetts each year that do not rise to the definition of disaster. Finally, the wording of this question is ambiguous.
