

Tech Parents Here Saturday

Open House Planned For Annual Event

On Saturday, May 14, Parents Day, sponsored by the Tech Council, will be held on campus. Parents of all Tech undergraduates as well as those of 400 prospective students have been invited.

The schedule of events begins with ROTC drill at 11 o'clock on Alumni Field. Immediately following drill dinner will be served at the Freshman dorm and at the various fraternity houses.

An afternoon filled with activity is planned as all of the buildings on campus will be open for inspection. The various departments will also conduct exhibits and demonstrations. For the more athletically inclined there will be a varsity baseball game at Alumni Field with the Tech nine meeting Tufts.

At 4 o'clock in the afternoon President Bronwell will welcome the parents to the campus. Following the President's welcome address "Bridge to the Future", a motion picture depicting life at Tech, will be shown.

Following supper which will be served at 6 o'clock at the Dorm and at the fraternities, the WPI Band will present its Annual Spring Concert in Alden Memorial Auditorium at 8:15 P.M. Appearing as guests will be the WPI Glee Club. Following the concert there will be dancing until midnight to the music of the Boyntonians.

MEETINGS INITIATED

Students Meet With Faculty

On Wednesday, April 27, at 4:00 P.M. in the Janet Earle room President Bronwell conducted the first in what is expected to be a series of student-faculty meetings. The faculty was represented by the various department heads and members of the administration. The students were represented by the members of the Tech Senate and Council of Presidents.

Several items were discussed at this meeting and although no definite decisions were made it is encouraging to the student to realize that this means of expressing opinion and presenting student viewpoint has been made so readily available.

The first question to be raised was "Is there any way of giving student treasurers more control over their organization's funds?" A committee was appointed to look into this matter in more detail.

The second issue had to do with the possibilities of a break between the end of the regular semester and the beginning of finals. Directly connected with this was the possibility of having exams during the week previous to finals maintained at a minimum.

The marking system in effect here at Tech was discussed with the students expressing the opinion that it is stiffer than at other schools and that this may be hurting Tech men in their bids for
See STUDENTS MEET—Page 4

SEIRON PLACES SECOND

In competition with the electrical engineering students of eighteen engineering colleges in New England and upper New York state, a Worcester Tech senior, Richard L. Seiron, won second prize in the annual A.I.E.E. student paper contest. This year's district contest was conducted at Cornell University in Ithaca, N. Y.

The topic of Seiron's paper was "Measurement of Stray Load Losses in Machinery". This describes a new method developed this year by Daniel Grant and himself to determine those machine losses which are so elusive that they are defined only in approximate terms in the A.S.A. test code. Seiron and Grant became interested in this problem and adopted it as their senior E.E. project. The award is based upon the written paper and the oral presentation of the topic before the AIEE conference.

In addition to a cash award, prizewinner Seiron and the counselor of the WPI student AIEE branch, Professor

ARTHUR B. BRONWELL NINTH TECH PRESIDENT

H. Jefferson Speaker at Inauguration

On Saturday morning, April 30, at 11 o'clock the inauguration of Arthur B. Bronwell as the ninth president of Worcester Polytechnic Institute was held in Alden Memorial Auditorium.

The ceremonies began with a processional march led by Dr. Raymond K. Morley, retiring head of the Math Department. Also participating in the march were the members of the faculty, the Board of Trustees, as well as many distinguished guests.

The city of Worcester was represented by His Honor, James D. O'Brien, mayor; and the Commonwealth of Massachusetts was represented by the Honorable Charles W. Patterson of the House of Representatives. Both of these men expressed their admiration for Tech and the fine job being done here and made known their belief in the wisdom of the choice of Arthur B. Bronwell as the new President.

Prior to the installation of the president Howard B. Jefferson, the President of Clark University, delivered an address which he fittingly titled "The Ethics of Scholarship". His main points were two in number and broad in scope. The first was the development of "an allegiance to the structure of truth and goodness" and the second was to "inculcate in the students a respect or even a reverence for the tools of knowledge".
See ARTHUR BRONWELL—Page 4

Rifle Team To Compete in April National Matches

Results of the 1955 First Army Area Intercollegiate and Interscholastic indoor small bore rifle matches indicates that the rifle team, representing both the ROTC and the Institute, has finished in the upper third of the 37 colleges and universities competing in the same class. As a result, the rifle team was selected along with eleven other schools in the First Army Area to compete in the National Matches to be held during the period 1-30 April 1955.

These matches were fired during the first part of March and consisted of four stages: 1. Prone-sitting, 2. Prone-kneeling, 3. Prone-standing, 4. Kneeling-standing. Ten shots were fired in each position by the team, with a maximum possible score of 2000 points per stage for the team.

Top team among the 37 was Fordham University with an aggregate score of 7434 for the match. The WPI ROTC team, although in 11th place, was close behind with 7050 points.

The highest aggregate score was turned in by James Warren, who fired a 736 out of a possible 800.

The Junior Class would like to take this opportunity to publicly thank the Military Science Department for cancelling all ROTC classes during the Saturday morning following the Junior Prom. We are indeed grateful and feel certain that the Prom could not have been the great success that it was had it not been for the complete co-operation of Colonel Harris and his department.

On the whole, the rifle team has had a successful year, having won more matches than in many years previous. Freshmen Gordon Page, Ed Fraser, Howie Steves, and Bruce Barnard have sparkplugged the team to victory and hopes are high that the WPI rifle team will win a trophy in the National Matches as well as rank high in the New England Rifle League next year.

This year the team has had numerous home matches and postals, and has travelled to Boston University, Univ. of Connecticut, and Yale.

The team as well as the Rifle Club itself owe much of its gratitude for elevating them to a strong position among campus activities to Colonel Harris, his inspiration and his advice.

Also, the excellent coaching and interest displayed by M/Sgt Enberg has been attributed as the main reason for the improved showing of the team over the last two years.

FROSH DRILL COMPETITION

Plans have been completed by the Military Science Department to hold the Freshman Drill Competition on 14 May 1955. Of the students participating, the first, second, and the third best drilled freshman cadets will receive a gold, silver, and bronze medal, respectively, which are to be awarded at the final parade ceremonies this year, on 18 May 1955. A preliminary or dry-run will be held on the Saturday prior to the competition, to allow cadets to familiarize themselves with the system of eliminations.

The judges of this contest are this year, as in the past, members of the

Illinois Tech Honors W.P.I. President

Arthur B. Bronwell, recently inaugurated president of Worcester Polytechnic Institute, was honored Friday evening, May 6, at Chicago by the Illinois Institute of Technology alumni association. President Bronwell received his bachelor's degree from Illinois Tech in 1933, and his masters in 1936.

At their annual reunion he received the association's distinguished service award which was presented "for outstanding achievement in service both as a citizen and a scientist."

From Chicago President Bronwell left for Detroit for a meeting with the W.P.I. alumni, Monday. Met there by Warren B. Zepp, alumni secretary-treasurer, he continued on to Cleveland for a meeting with an alumni group there. Thursday President Bronwell and Mr. Zepp will meet Prof. Pritchard in New York City and attend a meeting of the alumni chapter in that city.

EDITORIALS

To Class or Not to Class

One of the greatest failings that can beset a student here at Tech at this time of the school year is the thought that he can cut classes and not hurt himself and possibly even benefit himself by an afternoon's enjoyment or a few hours more sleep in a morning. This thought of course is pure hogwash. Just because spring has finally arrived after a long, hard winter and natural laziness seems to set into everyone's bones the Institute still goes on. There is no slackening in the pace of the instructors just because the students are beginning to feel the strain of almost seven months of continuous pressure.

If you stop and think a minute you will realize that every classroom hour is worth at least three hours of private study. Here at Tech we have the advantage of relatively small classes and the instructors are able to devote more time to the problems which confront the individual and it is up to every one of us to take full advantage of this, especially during this admitted period of sluggishness.

Another viewpoint of course lies in the fact that you pay good money for the privilege of attending classes. On a basis of a thirty-six week year and twenty hour week, not counting labs, the 700 dollar tuition fee figures to be approximately 97 cents per class hour; a paltry sum per hour but if more than one hour is lost the sum which is wasted takes on a more appreciable aspect.

The next four weeks are probably the most important for all of us, in that grades which aren't so hot can be pulled out of the fire and those extra two points which are needed to make honors can be garnered. It is up to everyone, in all fairness to himself, to make every effort to obtain these little boosts and one of the ways which gives you the best chance in either of these departments is to attend class regularly.

No Letters

When the present editors of the TECH NEWS first took office, there was an article in this column concerning the participation of all the students and faculty in the printing of articles in the NEWS. It was asked that any compliments or criticisms that anyone felt prevalent be brought to the attention of the staff in the form of a "Letter to the Editor". I am sorry to say that we have received very few such letters.

This can mean one of two things, the first is that everyone is completely satisfied with the manner and the methods used in publishing the paper and in the organization of the Institute; the second, that everyone is so apathetic toward the paper and the school that they just have no desire to rectify any faults which may be obvious to all but the staff.

At present the publishing schedule calls for the printing of only one more issue of the TECH NEWS. This issue will probably be out in two weeks. It will be the last chance this year that any one of you will have to express any feelings, whether they be good or bad. I can assure you that all comments will be received in good faith and we ask that no one pull any punches.

It is the desire of the editors to print a newspaper that fits the demand of the people associated with Tech, and we will do all that is in our power to make the TECH NEWS one of the better college newspapers but we need the help of everyone in achieving this goal.

On Other Hills By Dick Barlow

Eleven Soviet student editors are enjoying a month long tour of American colleges and universities. They will visit Columbia, Fordham, Hunter College, Tuskegee Institute, the University of New Mexico, Stanford, the University of Chicago, the University of Michigan, and Oberlin. The purpose of the tour, according to the State Department, is to acquaint the Soviet students with American student life.

Things are rough at Radcliffe. For the past twelve years the girls have had complete freedom under an honor code, to wander in and out of examination rooms and even stroll about the campus during finals. But reactionary forces have been working and exams will now be under the supervision of proctors. Things have come to such a pass that the poor girls aren't going to be allowed to smoke, eat or even talk during test periods.

The annual "beer 'n' bike" race from Yale to Vassar took place recently. Seven cyclists compose each team, and each rider is responsible for an eight to thirteen miles stretch over the seventy mile course. At the start of the race one man from each squad downs one quart of beer and then hustles off on his stretch. Thereafter one quart is

consumed after each stretch until they reach the pearly gates of Vassar.

A Yale senior renounced a \$350,000 trust fund left him by his father and appeared in court to designate his relatives as his father's heirs. He told the court that he had "moral and political" reasons for sacrificing the inheritance and he asserted that he had "two hands and a head" and that he intended to make his own way in the world. Being a self avowed socialist, he can't understand the commotion that followed his actions. Being a frustrated capitalist, I can.

LOYALTY

I love the paper;
I think it's swell.
The day it comes out
I run pell mell
To get my copy
And read each line.
The stories and columns
I think are fine:

I laugh at the jokes
I read all the ads,
I note all the news
I take in all the fads,
When I praise the paper
I scorn those who laugh.
I'm real loyal.
(I'm on the staff).

Read the
TECH NEWS
Each Week

The beautiful weather last week forced upon me an interesting thought. This idea is practical for the faculty as well as the students. What a colorful place the campus would be if everyone wore Bermuda Shorts!! If Tech would go from khakis to stylish Bermudas, it would be the most startling change in the history of the school. The results would be fantastic. Instead of writing degrading letters to the editors of newspapers, people would hail us as the style setting school of the city. Becker girls would be eager to walk through our campus and admire our athletic legs. The case of date problems would be closed forever. Or better yet the girls might keep up with the times and start wearing them also. Prospective freshmen, walking around would think we weren't too square (or would they?) The "Ill Treated" on the Senior toboggan should suck up this idea. They could leave their 9 o'clock and go directly for a cool 18. Wearing Bermudas would be just what everyone needs for their spring fever.

Although proms will never replace Bermudas, let's have a look at the big doings over the J. P. weekend.

SAE started the weekend in rip-roaring style. After a cocktail party at the house Friday evening, everyone went to the Franklin Manor for a dinner. Paris was the next stop. Whether they were French or not everyone went to Alden by the Seine to dance to the great sounds of Les Elgart. After the prom the brothers and dates adjourned to the house for "Dancing 'til dawn". Saturday afternoon found the SAE brotherhood out at Hillcrest Farm for a picnic. The Masque play was to be the feature for Saturday night bit; a few were waylaid by the "Blackboard Jungle". Casualties over the weekend were: Keith Preston, who pinned Joyce Lathers, Roy Pearson pinned Lois Bennett, Bill Mierke pinned Bev Ingalls, and Jack Gorr pinned Sigrid Erst.

The consensus of opinion at ATO seems to be that this was the best weekend ever. The brothers are still talking about the drinks Jack Jennings mixed for the cocktail party preceding the dance. His kind of talent comes only from long association with those things he holds so dear.

Saturday night provided a fitting climax to the weekend with the staging of a Panic Party in the game-room. The decorations were topped off by a Rube Goldberg type invention which dispensed the punch. This was constructed by Dr. Sundstrom out of all sorts of hairy Chem. Engine apparatus. Pinned in the Parisian atmosphere were: Al Twitchell to Priscilla Myers, Hank Dumas to

Among The Greeks

WITH HORATIUS HOBAN

Hatty Briggs, and Bob Sova to Jane Sullivan.

Theta Kap had a cocktail party after the prom out at Hillcrest C. C. while the morning was still young. A caravan left 26 Institute for Dean Park to have a picnic Saturday afternoon. After the weekend two brothers could not show their jewelry. Tony Scancellia pinned Loretta Beringer and Dick Quintin pinned Jeanne Gaudette.

AEPi fitted a week's activity into a weekend. They opened the weekend Friday night with a cocktail party to get everyone in a weekend mood. After the dance everyone moved back to the top of the hill to spend a quiet evening for the rest of the morning. Saturday noon everyone was rested enough to open one eye and find their way to Purgatory Chasm for a picnic and softball games. The activities of the weekend closed Saturday night with a pajama party. The lusty voices of the brothers were exercised as a one house songfest was held. By 3 o'clock Sunday, all that remained of the weekend were dreamy stares and piles of—you know what—for Monday morning.

Formal weekend left most of the brothers at the Ox Club in sad shape after getting no sleep. They had a picnic in Concord Saturday afternoon, and a banquet at the Franklin Manor that evening. After the banquet there was a hayride which

lasted until the wee hours of the morning. Joe Menghi dropped his pin to Jeanne Sullivan during the weekend, and passed out cigars to the brothers at the banquet. Friday night before the dance, Karla Olander was chosen by the brothers as Epsilon's "Dream Girl of Theta Chi" for 1955. Bringing back the idea of the Bermudas again—can you picture this—Alex Papaioannou, Duke of Theta Chi, walking to class in his TC sweater with Bermudas to match.

At Sig Ep's formal banquet before the prom Bob Stempel, Earl Bloom, Pete Hortsman and Bill Jordan initiated Crosby Adams and Dick "Blivet" Wright into the Alpha chapter of the Hackers League of America in recognition of their numerous and outstanding "hacks". On Saturday afternoon, the Sig Eps went out to Bill Andersen's home in Shrewsbury for some softball. The girls played against the guys; with the guys playing backwards to their usual habits until the girls got too good for them. After the Masque play Sig Ep had a pajama party and what a party. No one knew they had so much energy left by Saturday night. Pete Dirksen dropped his pin to Bev Berg and Don Craig revealed that Sin Kochan has had his pin for almost three weeks. Howie Brown became engaged to Nancy Dodge and Bill Jordan became engaged to Ruthanne MacFarland.

McNULTYMEN DEFEAT LOWELL TECH, 12-0

By Bob Galligan

The Engineers breezed to their fifth victory in six games by overpowering Lowell Tech at the latter's diamond 12 to 0 behind the strong pitching of Senior righthanders Pat, Liekkanen and Harry Barton.

Leikkanen was the starter and winner, as he effectively scattered all of Lowell's seven singles during the seven innings he worked. Barton toiled the final two frames holding the host team hitless and fanning four, three in the ninth.

Offensively it was Bob Schultz, Kev Joyce and Lou Marsella, with a single and double apiece, who led Tech's 12 hit attack. George Strom was the other Engineer to collect two hits.

W.P.I. showed its superiority early, scoring three times in the first and adding another in the second. Three walks, a Strom single and Joyce's double accounted for the scoring in the initial frame while Leikkanen singled across a tally in the second.

The visitors put the game on ice by scoring six runs in the fifth. Doubles by Marsella and Schultz, singles by Alekshun, Joyce and Eidt along with a walk and an error produced the six runs.

Tech scored its final pair in the ninth

on a Harry Barton single, two walks and an error.

Theta Kap Wins Track Meet; Phi Gam Takes 2nd

Theta Kappa Phi, led by Andy Szygula and Bert Lemieux who scored twenty-one of Theta Kap's twenty-six points, won the I.F. Track Meet for the first time in six years. Szygula led all point-getters with two first places and a second place for a total of thirteen points while Lemieux had a first and a second place. Szygula got his points by taking firsts in the mile and two-mile events and second in the half-mile while Lemieux took a first in the half-mile and a second in the mile.

Other point-getters for TKP were Dave Crimmins, who took fourth place in the high hurdles after Nate Beale was disqualified and was tied for first place in the high jump, and Richie Stevens who took fourth place in the hundred yard dash and the broad jump.

Close behind in second place was Phi Gam who was pushing Theta Kap right down to the wire only to fall short of first place by two points. Ted Wheeler and Bob Foisie led Phi Gam with Wheeler taking first and second places in the shot put and discus, respectively, and Foisie taking first in the broad jump and third in the hundred yard dash.

In third place was Sigma Alpha Epsilon on the strength of Keith Preston's two firsts in the hundred and twenty dash.

Charlie Bidwell looked good in pacing ATO to a fourth place, by winning the high and low hurdles. Freshman Nick Seelye took the 440 yard dash and came in second in the 220. In the high jump, Quart and Korelitz from AEPi together with Stotz from ATO and Crimmins were tied for first place. The pole vault ended in a tie also between Zwiers of SAE and Craig of SPE. The discus throw was won by Lawrence of TX.

Coach Merl Norcross says that the IF meet gave a good indication that the varsity track team will be improved by the addition of the top men in the meet. Most of those taking places in the meet have been out for track since March and their times were very encouraging considering that most of them are Freshmen or Sophomores.

TKP Cops I.F. Tennis Crown, TX Runner-up

Theta Kappa Phi was crowned the new I.F. Tennis champ as they defeated Sig Ep in their last match of the year to wind up a very successful season. The Kap trio of Charlie Sullivan, Mike Stephens and Dick Emery were undefeated as they rolled over all comers.

The season which was started last fall was very close all the way and interest was high among the houses. The teams this year were so evenly matched that it was not till the last two matches of the season that the top three positions were decided.

Theta Chi was runner-up to TKP as they suffered only one defeat, that being at the hands of the Kap, 6-3, 9-7. In third place was Phi Gam with a 6-2 record. These losses were inflicted by Theta Chi in three sets and Theta Kap also in three sets.

The over-all play this year was very good and much improved over last year. See THETA KAPPA PHI—Page 4

CRUSADERS BOW TO LACROSSE CLUB, 8-4

By Bob Purple

The Worcester Tech Lacrosse Club came through last Wednesday afternoon with their first win of the season against a rugged Holy Cross group in a home game at the soccer field. After four consecutive setbacks the team showed the co-ordination and spirit which had been so obviously lacking in the previous encounters. Right from the very start the Tech men took the part of the aggressor and, except for a short interval at the outset of the third quarter, were in complete control throughout the skirmish.

Jim Clampett started off what was to become a very satisfying afternoon for the Engineers by driving in unassisted and chalking up the first marker shortly after the game had begun. Midway through the first period Charlie Whitney, coming in from the midfield, flipped a perfect pass to Bob Purple and the latter's quick-sticking into the goal brought the score to 2-0.

The second quarter got off to a quick start with Clampett scoring on an assist from Howie Dworkin and shortly afterward, attachman Miles for Holy Cross pumped one into the Tech goal for the visitor's first marker. A spirited Tech crew came back undaunted, however, and, before the half ended, had countered with two more of their own—Clampett again with a nice shot from the side and Purple on a pass from the former.

The Cross started a big push in the

second half and scored two before the Engineers could do much of anything. Kelley and Brian, both on assists from Miles, accounted for the two goals. Just before the third period ended, Fred Clark fired a beautiful shot from way out into the visitor's goal and made the score 7-3 in favor of Tech.

In the last period the heat began to take its toll and the pace slowed considerably. It had been a fast, aggressive tilt up to this point and both clubs were beginning to feel the effect. Miles, the big gun for Holy Cross, fired one in after slightly less than a minute had elapsed, but George Long countered quickly for WPI. This ended the scoring for the afternoon and the game ended in an 8 to 4 victory for Tech.

The tilt was hard fought all the way—the imposing of twenty-four penalties gives testimony to this fact. The triumph was WPI's second consecutive as Tech whipped Holy Cross last year by an identical score. Captain Jim Clampett was top for Tech as he racked up four goals and an assist. Miles led the Holy Cross club with two goals and the like number of assists.

Worcester	2	4	1	1
Holy Cross	0	1	2	1

The scoring:
 Worcester: Clampett, 4; Purple, 2; Clark, 1; Long, 1.
 Holy Cross: Miles, 2; Kelley, 1; Brian, 1.

Trackmen Drop Season's Opener To UMass., 71-54

The Worcester Tech track team opened its season against the University of Mass. last Wednesday afternoon at Tech's Alumni Field. The Engineers gave a good account of themselves against the seasoned Redmen, who already had several meets under their belts, but bowed 71-54.

Leading all scorers was UMass's Bob Forman who took firsts in the low and high hurdles and was tied for first place with teammate Bob Allison in the high jump. High scorer for Worcester was Dick McBride, who came in first in the hundred yard dash and the two-twenty dash. The winning time for the hundred yard dash was 12.7 seconds and for the 220 it was 23.4 seconds. The 100 yd. dash was run right after the 120 yd. high hurdles and when the runners lined up for the event, they didn't notice that they were on the 120 yd. starting line instead of the 100. Unfortu-

nately neither the officials nor the coaches noticed the mistake and the runners went 120 yards instead of the usual 100.

Don Lussier also looked impressive while taking second in the low hurdles and thirds in the 100 and 220 yd. dashes. Jim Brown won the 440 dash in 52.6 seconds and came in third behind John Rogers in the half mile. Bert Lemieux and Andy Szygula came in second and third respectively in the mile and Hal Pierce took second in the two mile event.

In the high jump Earl Bloom, Bob Morgan, Stan Clevenger and freshman Norm Stotz were tied for third place. Bob Brass won the pole vault with a jump of ten feet, six inches and Don Zwiers was tied for second place with Beldan and Paroday of UMass. Bob Robinson came in second in the broad jump trailed by Earl Bloom. John Ed-See TRACKMEN—Page 4

Grogan, will be the guests of the Radio Corporation of America on an all-expense tour of the National Broadcasting Company's facilities at Radio City, including observation of the setting-up and transmission of an evening TV network program, followed by a tour of the RCA research facilities at Princeton, N. J.

Also at the Cornell conference, Professor Grogan was elected Vice-chairman of the branch counselors in the New York-New England district.

ARTHUR BRONWELL—From Page 1
The installation of the president was conducted by Mr. Philip M. Morgan, Chairman of the Board of Trustees. The newly installed President addressed the audience expressing his faith in the youth of today and demonstrating an air of optimism for the future.

Following his address, President Bronwell was presented with a scroll by Colonel James W. Green, Jr., who represented the United States Military Academy of West Point.

The ceremonies were closed with a recessional march from the auditorium. Following the inauguration a luncheon was served in the Sanford Riley Commons.

RIFLE TEAM—From Page 1
faculty who hold commissions as reserve officers in the Armed Forces. Professor John A. Bjork of the Mechanical Engineering Department, a Lt. (j.g.) Navy, Professor Robert W. Pritchard, a 1st Lt. A.F., Head of the Athletic Department, and Professor Harry B. Feldman, of the Chemistry Department, Colonel U.S.A.F., will judge the 1955 Freshman Drill Competition.

AMONG THE GREEKS—From Page 2
Phi Sig almost lost their spot covered mascot over the Junior Prom weekend. Evidently "Puddles" didn't like the idea of the girls moving in for the weekend. Their bashful dog "Puddles" disappeared Friday night. He was picked up for vagran-

cy, and had to be bailed out of the Shrewsbury Pound. New officers installed at Phi Sig were: Pres.—Al Hamilton; V. Pres.—Ray Hagglund; Sec.—Bob Fallstrom; Treas.—Lee Morgan.

STUDENTS MEET—From Page 1
jobs. This matter will be looked into further at the various Department meetings with the hope of giving benefit to those who deserve it most.

The last question pertained to the relatively short Christmas holiday granted at Tech. The students expressed the opinion that several Tech men have lost opportunities to work during this particular holiday since students at other schools have such a head start that all the jobs are taken.

At the present time there are several alternatives which will solve this problem. The first is to eliminate all the single holidays during the school year and take them all at once before Christmas. Another is to start school earlier so that a longer vacation at Christmas would be possible. There is also the possibility of conducting classes until 5:00 P.M. Since student opinion in a matter such as this would be of invaluable aid the Tech Senate is contemplating conducting a poll of student viewpoint in the near future.

THETA KAPPA PHI—From Page 3
With the large crop of freshmen out for the school tennis team it looks like the play in I.F. tennis will improve again next year and the competition will be even keener.

TRACKMEN—From Page 3
fors and Ted Wheeler took second and third respectively in the shot and discus events, while freshman Roger Billings took a second in the javelin throw.
